I lead ecommerce at WU Nutrition and Come Verde, with the channel budget and P&L on me, and I also build what we sell: Shopify stores, apps, websites and AI tools. My other specialty is applied AI: MADRE, AHP+ and Daniela are products of mine in use. More than eight years across growth, paid media, SEO and CRO. Because I both decide and build, what I propose reaches production.

● RESULTS

+21% · +35%
Quarterly sales at HP Mexico and Peru

+4% · +6%
HP market share, Mexico (2024) and Peru

+22%
CPC media conversion at Farmalisto

>\$1M MXN/mo
Media budget I managed at Farmalisto

+8 years
Across growth, paid media, SEO and CRO

● PRODUCTS I BUILT

MADRE VERSION 0.5.2 · OPEN
A room on your computer where your coding agents (Claude, Codex and others) work together and share the same project memory.
🔗 madre.run

AHP+ OPEN PROTOCOL
Project memory kept inside the repository, so any AI assistant picks up where the last one stopped.
🔗 github.com/jossuealcacao-exe/ahp_plus

Daniela LIVE ON WUNUTRITION.COM
Shopping assistant that answers with the store's real catalog and helps people pick the right product.
🔗 wunutrition.com

Bloqio Builder PRIVATE BETA
Block-based site builder: preview on desktop and phone, switch the theme in one click, and Blob, the AI assistant, helps you write it.
🔗 bloqio.app

● EXPERIENCE

Own products · WU Nutrition
2025 – now

Applied AI and AI Dev (agent-driven development)

- I built and released MADRE 0.5.2: four coding agents (Codex, Claude Code, Gemini CLI, OpenCode) in one room with shared memory and permissions; in a test room it saved 496,894 tokens over seven turns.
- I created AHP+ 1.4.1, an open protocol so project context travels between assistants and computers.
- I shipped Daniela (Gemini) to production on wunutrition.com and designed Jossue AI and Blob: bounded knowledge, structured answers, limits and human review.

● EXPERIENCE

WU Nutrition / Come Verde
Nov 2025 – now

Head of E-commerce & Digital Growth

- I lead ecommerce at WU Nutrition (its own Shopify store) and the digital channel at Come Verde (retail and marketplaces), with the channel budget and P&L on me.
- I write the store code myself: product pages, collections, landings, cart drawer and sticky buy button.
- I built Daniela, the assistant that serves wunutrition.com shoppers with the real catalog.
- I built Growth OS, the AI layer the team uses to review ads, brand and results; nothing runs until a person approves it.

Bloqio
2026 – now

Founder and product developer

- Bloqio Builder, an AI site builder, now in private beta.
- Two Shopify apps: Prometeo (announcement top bar) and Hermes (sticky add to cart), each with its panel inside the admin.
- Built with React, TypeScript, Node and Postgres, plus AHP+ to hand work between assistants without losing the thread.

Corporativo IMT
Mar 2025 – Nov 2025

Digital Project Coordinator

- I led digital marketing, commercial websites and branding for 8 brands.
- I opened new acquisition channels and ran paid media and SEO to bring in qualified leads.

HP Inc.
Nov 2021 – Feb 2025

Digital Sales Account Manager

- I ran commercial and demand strategy with key retailers in Mexico and Peru: quarterly sales +21% in Mexico and +35% in Peru.
- HP market share grew +4% in Mexico (2024) and +6% in Peru.
- I pushed the online channel and coordinated omnichannel campaigns in key seasons.

Farmalisto Mexico
Oct 2020 – Nov 2021

Senior Paid Media

- +22% conversion on CPC media, with budgets above \$1M MXN a month across SEO and paid media.

Estrasol · Grupo Megamex
2017 – 2020

SEM Strategist · Brand Manager

- Search campaigns for agency clients and brand management in consumer goods.

● WHAT I DO

Ecommerce	Shopify, Liquid, custom apps and themes, Shopify CLI, product and collection pages, cart, checkout
Conversion	UX analysis, testing, speed (Core Web Vitals), site search, trust signals
Growth	Paid media (Meta, Google), SEO, GA4, GTM, Search Console, Looker Studio, Klaviyo, Odoo
Code	HTML, CSS, JavaScript/TypeScript, React, Astro, Node, Prisma, PostgreSQL, GitHub, Cloudflare, Railway
Applied AI	Claude Code, Codex, Cursor; assistants with real data and permissions, agents with human review
